Scanning and Emailing

If the printer is connected to a network, you can select a destination for the scanned image at the printer control panel.

This guide defines techniques to scan documents without preparing special setups:
- Scanning documents to an email address.
- Scanning documents to a saved Favorite, Address Book listing, or USB Flash Drive.
- Scanning documents to the Default Public folder on the printer hard drive, and retrieving them using your Web browser.

For details and more scan setups, refer to the User Guide. For details about address book and workflow template setup, refer to the System Administrator Guide.

1

Load the original documents.

2

Press Home, then to email the scan touch Email. To scan to the Default Public Mailbox or a USB Flash Drive, touch Workflow Scanning. If your scan destination is stored in the Address Book or saved as a Favorite, touch Scan To.
For Email, touch Manual Entry, type the email address using the touch screen keypad, then touch Add. To add more than one email address to the list, touch Add Recipient. To type a subject line for the email, touch Subject. To select saved email addresses, use the Device Address Book or select from Favorites.

For Workflow Scanning, touch Default Public Mailbox, or insert your USB Flash Drive.

For Scan To, to enter saved share locations, touch Favorites or Device Address Book.

Change the settings as needed, then touch Scan, or for Email, touch Send.

Note: Settings from previous users remain onscreen for a short time. To restore the default settings in an app, scroll to the bottom of the feature list and touch Reset.
Retrieving Scan Files

To download your scanned images from the Default Public Mailbox on the printer, use the Embedded Web Server. You can set up personal mailboxes and workflow scanning templates in the Embedded Web Server. For details, refer to the User Guide.

1. Note the printer IP address on the touch screen. If the IP Address does not appear in the upper left corner of the touch screen, press Home, touch Device > About then scroll to check the IP Address.

2. In a Web browser, type the printer IP address, then press Enter or Return.

3. Click the Scan tab.
Select the **Default Public Mailbox**, then find your scan in the list. To download the scan, click **Go**.

To refresh the list, click **Update View**. To save the file to your computer, select **Download**. To print the saved file again, select **Reprint**. To permanently remove the stored job, select **Delete**. To open a directory, select **Open**.
Faxing

You can send a fax in one of four ways:

- **Fax** scans the document then sends it directly to a fax machine.
- **Server Fax** scans the document then sends it to a fax server, which transmits the document to a fax machine.
- **Internet Fax** scans the document then emails it to a recipient.
- **LAN Fax** sends the current print job as a fax.

For details, refer to the *User Guide*. For details about LAN Fax, refer to the print driver software. For details about fax setup and advanced settings, refer to the *System Administrator Guide*.

1. **Load the original documents.**

2. **To send the fax to a fax machine, press Home, then touch Fax or Server Fax.**

   **To send the fax as an email attachment, touch Home, then touch Internet Fax.**
For fax numbers, touch **Enter Recipient**, then enter the fax number using the touch screen alphanumeric keys and special characters. Touch **Add**. To add more fax numbers to the list, touch **Add Recipient**.

For Internet Fax email addresses, touch **Enter Recipient**, then enter the email address using the touch screen keypad. Touch **Add**. To add more email addresses to the list, touch **Add Recipient**.

To select saved numbers, use the Device Address Book or Favorites. To select stored fax locations, use the Mailbox or Polling.

Change the settings as needed, then touch **Send**.

Note: Settings from previous users remain onscreen for a short time. To restore the default settings in an app, scroll to the bottom of the feature list and touch **Reset**.
