Recommended Xerox Materials for CopyCentre C32/C40 & WorkCentre Pro 32/40 Color (USA and Canada)

For use in the US and Canada

Revision 1.1, Publish Date: July 23, 2003

For the most recent version of this quarterly published document, visit www.xdss.com, select "Free Downloads", then "Color".

Important Notes:

All media is listed by product, machine run mode, weight (standard gsm), re-order number, size, and tray runability. The additional information column is for hints and tips on how to run certain media applications.

Media recommendations made in this publication are based on qualification tests* conducted using standard test images with moderate to heavy image area coverage.   Test duration for each product/media type is based on the suggested machine monthly copy/print volume. Test machines are maintained within specifications defined by user documentation.

* Testing Environment temperature range of 60-75 deg. F, Relative Humidity range 20-40%.

*Machine reliability specifications may be affected by increased usage of the Heavyweight mode and Extra Heavyweight modes. In addition, variances in machine reliability may occur due to extended use of some media types. Your Xerox service representative can advise you on using Heavyweight mode, Extra Heavyweight mode or special application media types for long duration copy/print runs.

For specifications and a description of the various media types discussed in this publication, please refer to www.Xerox.com

Trays 1,2,3,& 4: Plain/Bond/Recycled (64-105gsm) ☐
Paper Types are selected within system settings.

Tray 5: Plain/Bond/Recycled (64-105gsm) ☐   **Transparency** ☐
Heavyweight Plain & Glossy (106-169gsm) ☐ Extra Heavyweight Plain & Glossy (170-220gsm) ☐
