DC220/230ST Token Ring® Quick Install

Installation Requirements:

The Token Ring card must be inserted **face down** to obtain connectivity.

1. Perform the following procedure if Token Ring will be selected as the Interface for the network:

   a) Press the **[Access]** button on the Control Panel.

   b) Enter the System Administrator password by typing **#22222** **(# key and 22222)** on the keypad and pressing **[Enter]** on the screen.

      Note: #22222 is the factory default password and may be changed by your Xerox service representative to suit your needs.

   c) On the screen display, press **[Print Setups]**.

   d) Press **[Port Setups]**.

   e) Press **[Token Ring]**.

   f) Press **[Enablement]**.

   g) Press **[Enabled]**.

   h) Press **[Source Routing]** and select either **[All]**, **[Single]**, or **[None]**.

   i) Press **[Speed]** and select either **[Auto]**, **[4 Mbps]** or **[16 Mbps]**.

   j) Press **[Save]**.

   k) Press **[Close]**. The DC220/230 will reboot and print a configuration sheet in approximately 3 minutes.

2. Check the settings on the configuration sheet against those that were entered.

3. Refer to the Quick Install card for your environment and perform the network installation at the DC220/230.

Additional information on Token Ring installation can be found in the *DC220/230 System Administration Guide*.
