Apple Macintosh (AppleTalk) Network Quick Install Card
Xerox Document Centre 240/255/265 LP/ST

Before You Start

If your printer is equipped with a Token Ring interface, use the **Token Ring Quick Install Card** supplied in this Quick Install Card set to set the Ring Speed and Source Routing settings for your environment.

Record the following information

AppleTalk Name _____

AppleTalk Zone _____

Go to the printer and...

1. Connect your Document Centre 240/255/265 to the network with the appropriate cabling.

2. Enter the *Tools* pathway

 a) Press the **Access** (*A*)button.

 b) On the keypad enter **1111** or the current password. Press the **Enter** button when finished. If your printer is an ST model press the **Go to Tools** button, otherwise skip to the next step.

 c) The Touch Screen will be used for the remainder of the data entry.

3. Enable the AppleTalk protocol.

 a) Press the **Connectivity and Network Setup** button.

 b) At the next screen, press the **Network Setup** button.

 c) At the next screen, press the **AppleTalk** button.

 d) At the next screen, press the **Protocol and Media** button.

 e) At the next screen, press the **Enable** button to enable the AppleTalk protocol.

 f) Press **Save**.

4. Assign a Name and Zone to your printer.

 a) You will be returned to the previous screen. Press the **Name and Zone** button.

 b) At the next screen, press the **Printer Name** button and enter the name you want for the printer (this is the name that will appear in the Chooser on your workstations) using the touch panel keys. Then press **Save**.

 c) You will be returned to the previous screen. Press the **Zone Name** button, enter the desired text for this item using the touch panel keys, then press **Save** (the printer default is * which means the printer will appear in ALL zones).

 d) Press the **Exit Tools** button.

5. **Wait a MINIMUM of 7 minutes** for the printer to reset.

   a) Obtain a **Configuration Report** page from your printer.

   b) Review the **AppleTalk Settings:** area of the **Configuration Report** page and verify that **AppleTalk** is enabled, the **AppleTalk Name** is correct, the **AppleTalk Zone** is correct (if used).

   c) From the documentation package supplied with your printer, retrieve the **CentreWare Network Services** CD-ROM (CD-ROM 2) and the document entitled **Getting Started with Print and Fax Services**. Proceed to the next section of this procedure called **Go to a Workstation and...**

Go to the workstation and...

1. Use the **CentreWare Network Services CD-ROM** (CD-ROM 2) to install print drivers and the Macintosh Naming Utility on the workstation. Details for this are found in the document supplied with your printer entitled **Getting Started with Print and Fax Services**.

2. Send a test job to the printer from an application program.

3. Check your test job for quality and use the problem solving section of the **Document Centre 240/255/265 Reference Guide** for resolving print defects.

4. If your job did not print see the Troubleshooting section of the **Network Installation and Troubleshooting Guide**.
