

## *DigiPath Customer Bulletin*

---

**Configuration:** DigiPath 3.0

**Release:** DigiPath 3.0

<b>Bulletin Number:</b>	<b>DigiPath 63</b>
<b>Distribution Date:</b>	<b>1/2003</b>
<b>Expiration:</b>	<b>Next release</b>

**Analysts:** Please provide a copy of the Safety Declaration attachment included with this bulletin to all DigiPath 3.0 customers that have a DigiPath Scanner.

**Subject:** Safety Declarations for DigiPath Scanner

### **PROBLEM**

Xerox requires that a Product Safety Declaration be distributed in printed form with all of our products. This requirement was previously met for the DigiPath Scanner when we included the Safety Declarations in the DigiPath hard copy Customer documentation.

### **CAUSE**

All Customer documentation for the launch of DigiPath 3.0 in September 2002 was delivered in an electronic format. As a result, all existing DigiPath 3.0 accounts with a DigiPath Scanner installed do not have the hard copy Safety declarations document.

### **SOLUTION**

On the next customer visit to a current DigiPath 3.0 site or when installing DigiPath 3.0 with a new DigiPath Scanner, please present a printed copy of the attached Safety Declarations document to the person closest to or responsible for the product. This document must be presented at all DigiPath 3.0 sites where a DigiPath Scanner is installed regardless of whether the installation is an upgrade from an earlier version or a new install.

Product Development is in the process of having the printed Safety Declarations packaged with new-build scanners. It is not known at this time when new scanners will be delivered to the field with the printed safety declarations included. An update to this message will announce the inclusion of the Safety Declarations document and an end to this delivery requirement.
