Installationsguide

Introduktion XDA-Lite

XDA-Lite är ett program avsett för insamling av data från skrivare. Det används framför allt för att automatiskt skicka in mätaravläsningar som underlag för korrekt fakturering. XDA-Lite innehåller tjänster som hjälper dig att övervaka och hantera kundernas skrivare mer effektivt och till en lägre kostnad.

XDA-Lite stöder följande plattformar: Microsoft Windows® XP med Service Pack 3, Windows Server® 2003 med Service Pack 2, Windows Server® 2008 med Service Pack 1 och 2008 R2 med Service Pack 1, Windows® 7 Professional, Enterprise och Ultimate, Windows Vista® Service Pack 2 Ultimate, Business och Enterprise.

Obs! Vi rekommenderar att XDA-Lite installeras på en nätverksansluten dator eller server som alltid är igång och uppkopplad till Internet för att undvika eventuell dataförlust.
