How to find MAC address of 4110/4590 built-in Controller

To find the Media Access Control (MAC) address of the 4110/4590 do the following:
1. Print the Configuration Sheet / System Setting List
   a. Press the [**Machine Status**] button on the Control Panel. The Machine Status screen will be displayed on the Touch Screen.
   b. Select the [**Billing Meter / Print Report**] tab.
   c. Select the [**Print Report / List**] button.
   d. Select the [**Print Mode Settings**] button.
   e. Select the [**Setting List - Common Items**] button.
   f. Press the [**Start**] button on the Control Panel to print the list.
2. After printing the system settings sheet find the header Communication Settings (most likely on page 3 of the Systems Settings list), the MAC address will be under Ethernet Settings.

NOTE: In this instance, MAC refers to Media Access Control, not the Macintosh.

How to find MAC address of 4110/4590 Fiery Controller

To find the MAC Address on the Fiery DFE Controller:
1. Select [**START**]
2. Select [**Run**]
3. Type – cmd and then select [**OK**]
4. In the CMD Window type – ipconfig /all – then press 'enter'
5. Read the MAC Address as the 'physical address' that is just above the customer's ip address.
