SPIRE
ADVANCED PRINTING TECHNOLOGY

Release date Dec-2007

Technical bulletin

CX250V1.1-SP2 - PDF Library 7.0.7 patch

Background

This patch is addressing problems of font missing and handling with Adobe PDF Library 7.

Minimum Requirements

This patch should be installed on top of **CX250 version 1.1_SP2** only. It does not include any previously released patches and does not conflict with any.

Installation Procedure

1. Quit the SPIRE application.

2. Make a backup of the current CX250 S/W (in case you want to rollback if the patch caused damage) the backup procedure will automatically reboot several times and upon completion the SPIRE application is launched.

3. Quit the SPIRE application.

4. Copy the **"PDF7.0.7 patch.exe"** to the Spire and double click it to install the patch.

5. Once the Patch installation completed start the SPIRE application again.

SPIRE
ADVANCED PRINTING TECHNOLOGY

**6.** The Help->About window should display in the Updates section: **"PDF7.0.7 patch 18-Dec-2007"**

Please note that there is no Uninstall procedure for this patch.

In case you need to rollback, follow these steps:

1. Quit the SPIRE application.

2. Press once the **RCVR** button at the back of the Color Server (Note that the led should light Orange after you pressed the button).

3. Click Start-> CX250 and select the option **"Set last Image recovery"** as seen in the screen capture.

4. Now restart the Color Server. Follow the instructions on screen.

Important: Make sure you press the **RCVR** button when you are being asked to do so in the Recovery procedure, in order to release it. Otherwise, each reboot will perform the Last Image recovery procedure again.

At the end of this procedure, the Color Server should be at the same S/W level as it was prior to the patch installation.

List of fixed SPAR's

SPAR#	Summary
00035244	Some characters are missing after RIP
00035235	All Characters are replaced after RIP
00033600	Problem with fonts when using Spire HF
276727987 00044350	Files from Prinergy fail to Import
00037404	Font substitution problem

About Print On-Demand Solutions

The Print On-Demand Solutions (PODS) group develops high-performance digital color servers to drive a range of digital printers and presses. It also develops advanced on-demand applications to enable the creation of personalized direct mail, targeted catalogs, and other powerful one-to-one marketing communications.

The PODS group is an independently managed unit within Kodak's Graphic Communications Group. Information about PODS is available at www.pod-wf.com.
