

Windows 7

Compatibility with Xerox Equipment

Version 1.3

November 10, 2009

Xerox Products' Compatibility with Windows 7

Xerox offers a wide variety of print drivers for the newest operating system from Microsoft – Windows 7. The following table lists various Xerox products and information regarding Windows 7 driver compatibility and availability. The table refers to a compatibility level for each product; a description of the compatibility levels is provided at the end of this document. This table will be updated periodically as Xerox releases new Windows 7 print drivers.

To access drivers for your products, visit <http://www.xerox.com/drivers>, enter the name of your product, and select the Drivers & Downloads link from the resulting page.

Product	Compatibility Level	Additional Information
Phaser (and related) Products		
DocuColor 2006	<u>1</u>	A PPD package is available for this product
DocuPrint 255	<u>3</u>	
DocuPrint N2125 / N4525	<u>1</u>	A PPD package is available for this product
FaxCentre F110 / F116	<u>3</u>	
FaxCentre 2121 / 2218	<u>3</u>	
Phaser 1235 / 2135	<u>1</u>	A PPD package is available for this product

Print Administration in Windows 7

The folder known as “Printers and Faxes” in older versions of the Windows operating system is now part of the “Devices and Printers” console in Windows 7. In addition, some of the administrative functions that could be found in the “Printers and Faxes” folder can now be found in the Print Management Console. Be sure to review the latest documentation from Microsoft to learn about print administration changes in Windows 7.

Xerox Support Contact Information

For additional information or clarification for any of the product information presented in this document, please contact your local Xerox Customer Support Centre; Xerox Customer Support at 1-800-821-2797 (USA), TTY 1-800-855-2880, or visit <http://www.support.xerox.com>.
