

Kit Installation Instructions

PSG SPAR Team

Product(s):	EX260 v2.0 for DocuColor 242/252/260	Date:	10/08/08
Title:	1-ZVHS8 Installation instructions	Page:	1 of 1

Purpose

This software kit provides an EX260 software update in response to an EX260 SPAR. Refer to the included customer letter for more information.

In the event of an EX260 system reinstall this software should be reapplied.

- It should contain the patch number **1-ZVHS8**.

Kit Contents

Qty.	Description
1	Kit Installation Instructions
1	Customer Letter
1	1-ZVHS8.zip file

Prerequisites

- Previous working knowledge with the EX260
- The EX260 must be at version 2.0 prior to performing this install. This software is supplemental to the 2.0 launch software.

Installation Instructions

NOTE: This software may be installed by the customer.

NOTE: This patch should only be necessary if patch 1-ZKLVF is installed.

NOTE: If your server is not equipped with a FACS kit (Fiery keyboard, mouse, monitor), any keyboard, mouse, monitor can be used.

Install the EX260 1-ZVHS8 patch:

IMPORTANT: This patch must be executed manually on the Fiery itself.

Installing 1-ZVHS8.exe manually

- Place the 1-ZVHS8.exe patch on the desktop of the Fiery server using the FACS monitor or via Remote Desktop to your Fiery server.
- Double click on the patch.
- A window will appear displaying a message that the "Fiery service is stopping"
- Then, a subsequent dialog box will appear indicating that the Fiery is shutting down. The Fiery will then reboot automatically.
- When the Fiery has come to Idle, print the System Update log.
