## I. Fixes/Features new in this release

- In this release, update for LED driver on main PWB has been added for both Tag 29 and Non-Tag 29 products of WC 3025 NI and WC 3025 BI.
- This release contains the latest updates and features for devices built with new Wireless hardware (WiSol Chipset) for Tag 29 products. This hardware is indicated on the device by having Tag 29 marked on the tag matrix label.

## II. Installation Notes

Install instructions are included in the zip file containing firmware. Unzip and download before attempting to install the firmware
