Preface

General Purpose and Audience

The EFI Fiery Mixed Media programming guide provides operators with the steps necessary to create and print individual tab document sets on the Xerox DocuColor 700.

Required Materials

- Blank Single Straight Collated Tabs

<Tab Media Example>

[This page left intentionally blank]

Loading Tab Stock in Bypass Tray 5

1

1. Insert the largest flat edge of the tab stock into bypass Tray 5.
The tab ear cutouts will face left.

WARNING

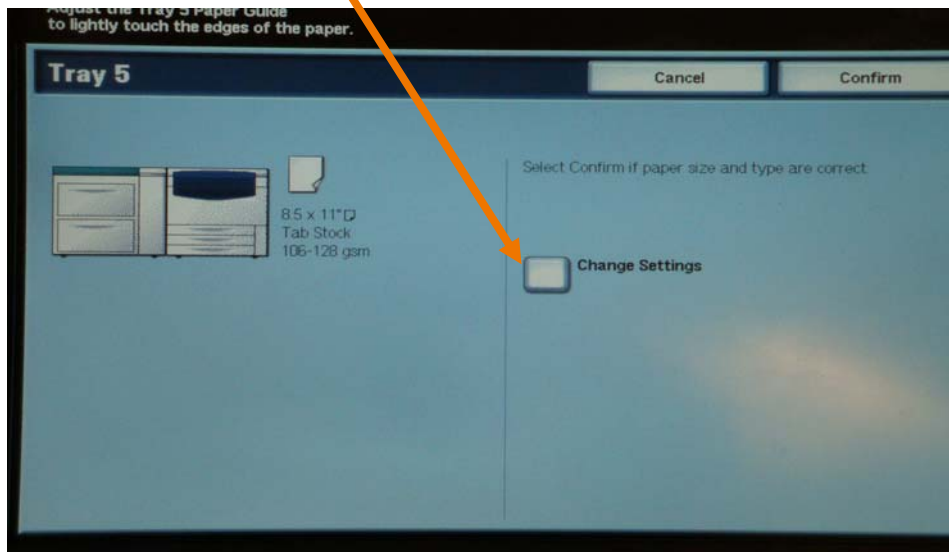

Always use complete tab bank / sets in the paper tray.
The following procedure may only be used on a DocuColor 700 Digital Color Press with a Light Production Finisher. All other Xerox finishers will yield unexpected results.

Programming Bypass Paper Tray 5

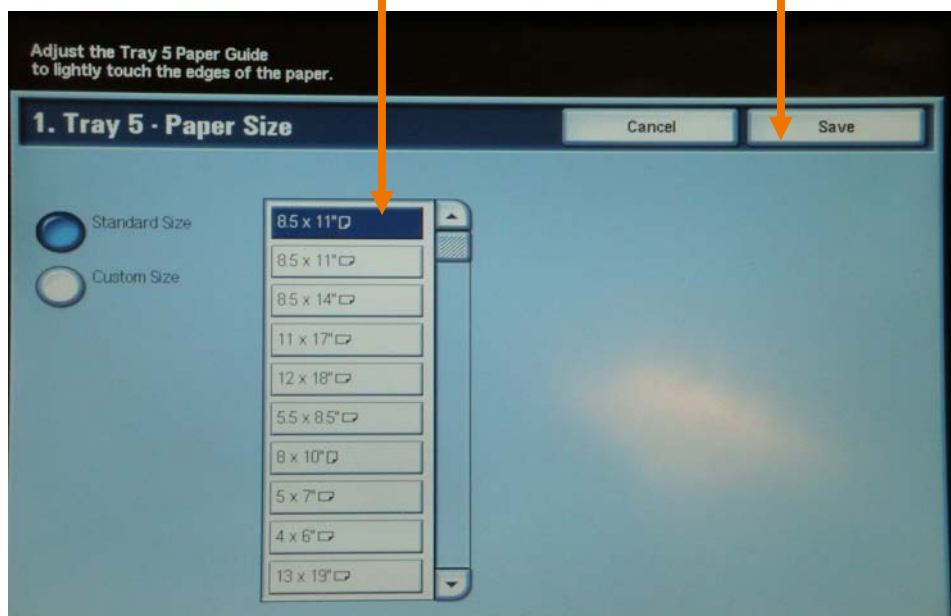

2

2. Select: Change Settings.

3. Select: 8.5 x 11.

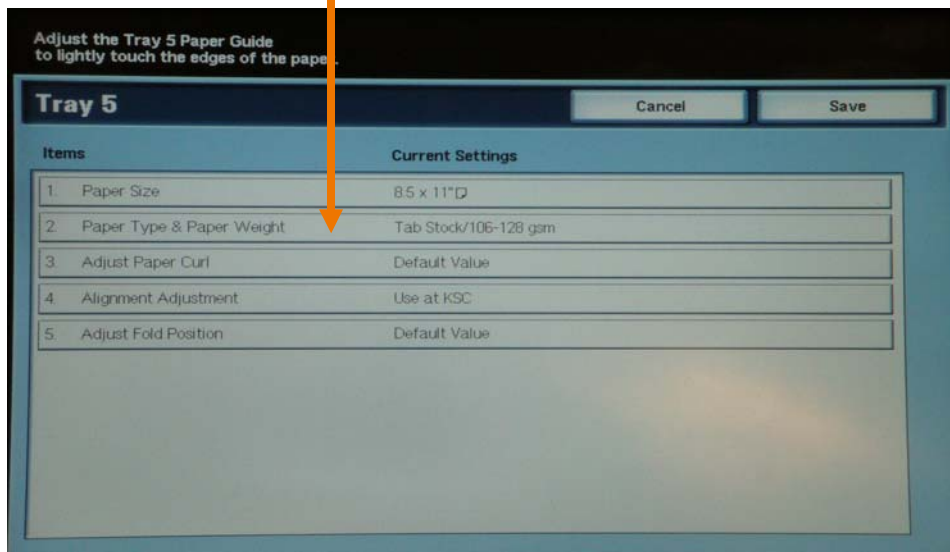

4. Select: Save.

Programming Bypass Paper Tray 5

2

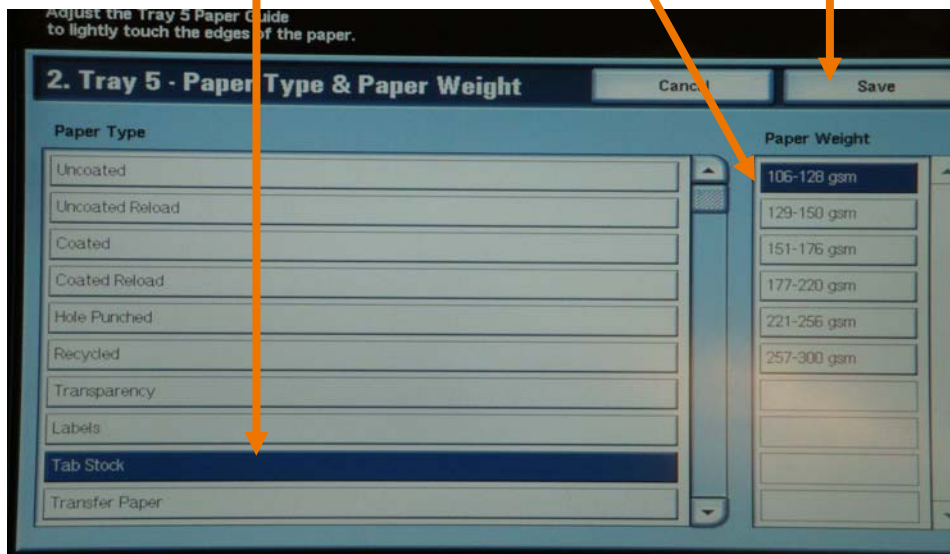

5. Select: Paper Type and Weight.

6. Select: Tab Stock.

7. Select: Paper Weight.

8. Select: Save.

Programming Bypass Paper Tray 5

2

9. Select: Save.

Adjust the Tray 5 Paper Guide to lightly touch the edges of the paper.

Tray 5

Cancel Save

Items	Current Settings
1. Paper Size	8.5 x 11"□
2. Paper Type & Paper Weight	Tab Stock/106-128 gsm
3. Adjust Paper Curl	Default Value
4. Alignment Adjustment	Use at KSC
5. Adjust Fold Position	Default Value

10. Select: Confirm.

Adjust the Tray 5 Paper Guide to lightly touch the edges of the paper.

WARNING

The following procedure creates printed tab bank sets only!
For all other tab printing procedures please contact your
Systems Administrator or an authorized Xerox representative for assistance.

11. Go to the Fiery Command Workstation.

The screenshot shows the Fiery Command Workstation interface. The top status bar indicates 'Processing' and 'Printing' modes, with a warning 'Drum Cartridge Y [R4] needs to be replaced soon'. The 'Active Jobs' list is visible, showing various print jobs with columns for Job Title, Date/Time, User, Pages, Copies, Size, Server, Document Size, and Order. The 'Start' menu is open, showing 'All Programs' and 'WordPad'. The 'WordPad' application is highlighted, indicating it is selected.

12. Select: Start.

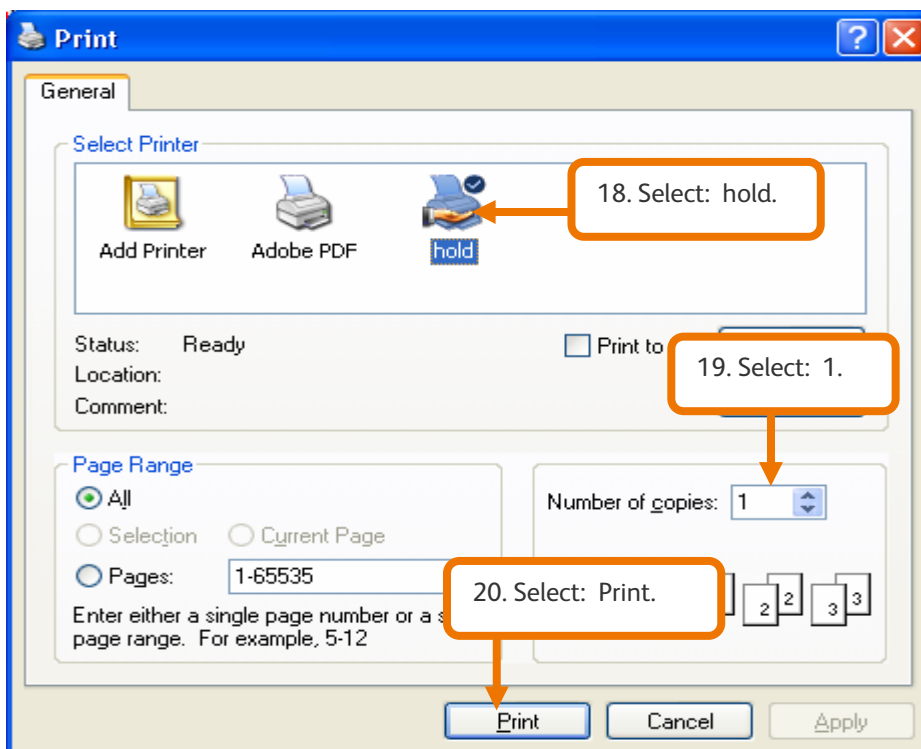

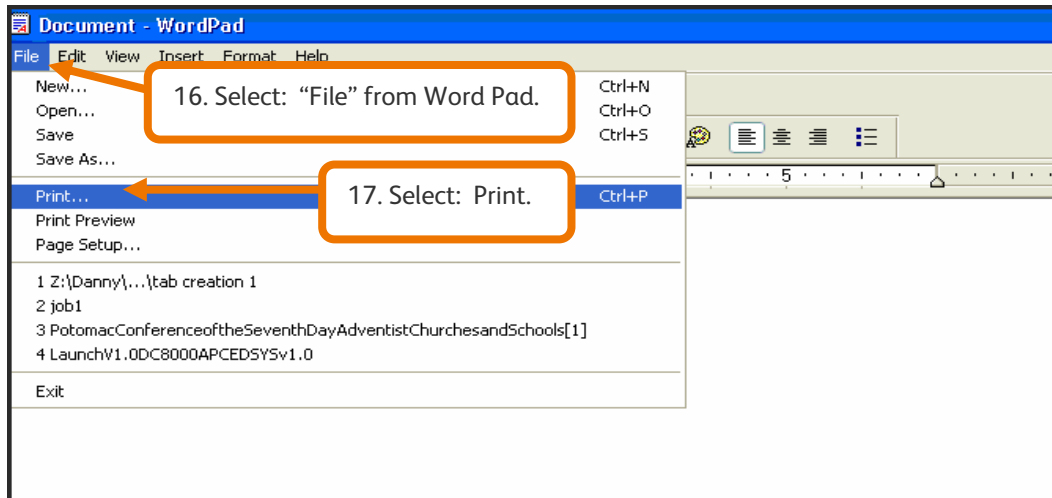

13. Select: All Programs.

14. Select: Accessories.

15. Select: Word Pad.
