Overview

This upgrade kit contains everything you need to upgrade your current system from **Windows NT** using **v2.x Matchprint Professional Server** software to **Windows 2000** using **v3.0 Matchprint Professional Server** software.

Upgrade Kit Contents

This kit contains the following items:

- Upgrade Kit Instructions (these instructions)
- MPS v3.0 Ghost CD-ROM
- Norton Ghost Boot Floppy
- Windows 2000 Server Software with Product Key (license number) included.

Important! You must have all kit items prior to beginning the upgrade!

Re-Ghost Instructions

- 1. Insert the **Norton Ghost Boot floppy** disk, then power on the system.
- Insert the MPS v3.0 Ghost CD into the CD-ROM drive. Wait until the following About Symantec Ghost screen displays. At the About Symantec Ghost window, click OK. A menu screen displays.

Abou	it Symantec Ghos	-1
	Product Manufacturer	Symantec Ghost 7.5 Corporate Edition Symantec Corporation Copyright (C) 1998-2001 Symantec Corp. All rights reserved.
	Name Company	Kodak Polychrome Graphics Kodak Polychrome Graphics

3. At the menu, choose the following path: **Local > Disk > From Image** as shown below:

	Local	Disk	To <u>D</u> isk			
	Been to peer	Partition	To <u>I</u> mage			
Symanteo	Options Quit	2 <u>C</u> heck	Erom Image	2		
				(S symant	ec.	

4. At the Look In drop-down menu, select c:[Ghost_00.1] CD Rom drive. In the lower portion of the window, select CDR00001.GHO file.

5. At the **Select local destination...** window select **Drive 1**, then select **OK**.

6. At the **Destination Drive Details** window, click **OK**.

Part	Type ID	Description	Label	New Size	Old Size	Data Size
1	Primary 07	NTFS	DiskLoad	34726	4094	2397
			Free	6	30638	
			Total	34732	34732	2397
			1			

7. At the Question: **Proceed with disk load? Destination drive will be permanently overwritten**, select **Yes**.

A progress screen displays:

8. When the **Clone Complete** screen displays *eject the CD and floppy*. Click on **Reset Computer**.

Customer Site Setup

- 1. After completing the previous instructions, and selecting **Reset Computer**, the system launches the **Welcome to Windows 2000 Setup Wizard**. Click on **Next**.
- 2. At the license window, select **I accept the agreement**, then click on **Next**.
- 3. At the **Personalizing your Software** window, enter the administrator's group name and organization (company). Click on **Next**.
- 4. Enter your **Product Key** in the spaces provided. Click on **Next**. (The Product Key license number is located with the Windows 2000 Server Software that came packaged with this kit.)
- 5. The computer name should be left unchanged unless you know the correct name. This name is determined by Windows 2000.

Important! The administrator password and confirmation should be *left blank*.

- 6. Click on **Next**.
- 7. Set the date and time, then click on **Next**.
- 8. Depending on your system configuration, the following **Welcome to the Found New Hardware Wizard** screen may display.

If is does display, continue with 8a - 8f. Otherwise, you are ready to load the MPS v3.0 application.
