

October 2009

Use the following general steps to install FreeFlow Print Manager 8.0.

To install the Print Manager 8.0

1. Ensure that any previous versions of FreeFlow Print Manager are removed from the workstation on which FreeFlow Print Manager will be installed. Perform the following to start the uninstall process:
 - Click **Start > Programs > Xerox FreeFlow Software > FreeFlow Print Manager Tool Suite <version> > Uninstall FreeFlow Print Manager Tool Suite.**

NOTE: Printer Manager version 7.0 and higher must be uninstalled using the Windows Control Panel Add or Remove Programs utility.
2. Microsoft .NET Framework 3.5 Service Pack 1 **must be installed before** you can install Print Manager. If necessary, download the necessary install file from Microsoft and install the correct version of .NET Framework.
3. Insert the Installation CD into the CD drive on the workstation. Perform the following to start the installer:
 - If the installation program does not start automatically double-click **Setup.exe** to begin the installation process. Follow the screen instructions to install the product.

NOTE: The installation program may require you to supply the operating system CD or the i386 folder location in order to install additional components necessary for the software to function.
4. After a successful installation, perform the following post-installation tasks:
 - a. Select whether a local or remote printer list will be utilized. Click **Start > Programs > Xerox FreeFlow Software > Printer Administration > Printer Registration List Locator.** For information on how to use the Printer List Locator, use the online Help for the application.
 - b. If you are using a local printer list, set up the printer list using the Printer Registration Tool. Click **Start > Programs > Xerox FreeFlow Software > Printer Administration > Printer Registration.** Ensure that The Print Manager check box is selected when the program is started. For information on how to use the Printer Registration, use the online Help for the application.
5. Test the installation by printing a document. For information on how to print using Print Manager, use the online Help for the application.

The following documentation is available for instruction and use of additional FreeFlow applications:

- Xerox FreeFlow JMF Service User Guide, Part Number: 701P49904
- **Xerox FreeFlow Hot Folder application:** available as part of the FreeFlow Print Manager online help system.
