

WJA 7.8 SP3 Xerox package installation instructions

This document will help you to install the WJA 7.8 package bundle that has a dependency on the WJA 7.8 SP3.

SP3 (Service Patch 3) Installation Steps:

*If you don't have installed the `wja78_releasepatch3_bundle.fpb`, please follow these steps before installing the XeroxBundle:

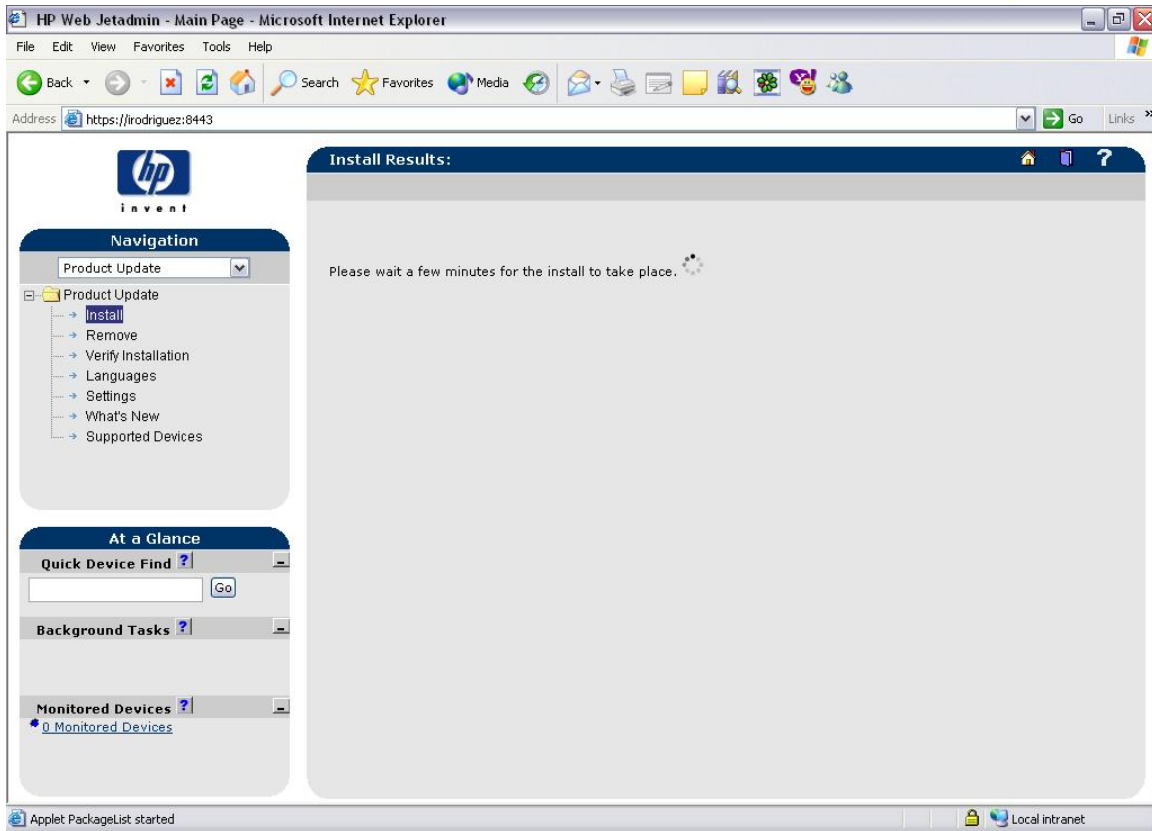

1. Select the **General Settings** in the left menu tree inside the **Navigation** area.
2. Click on the **Setup Wizard** option.
3. On that screen, click on the *Next* Button until the *Setup Wizard – Page 4 of 11* appear.
4. Make available the *Allow HTTP Downloads* checkbox.
5. Fill the *HTTP PROXY SERVER* and the *HTTP PROXY PORT* fields with the IP address of the Proxy server in your company. The HTTP port is 80.

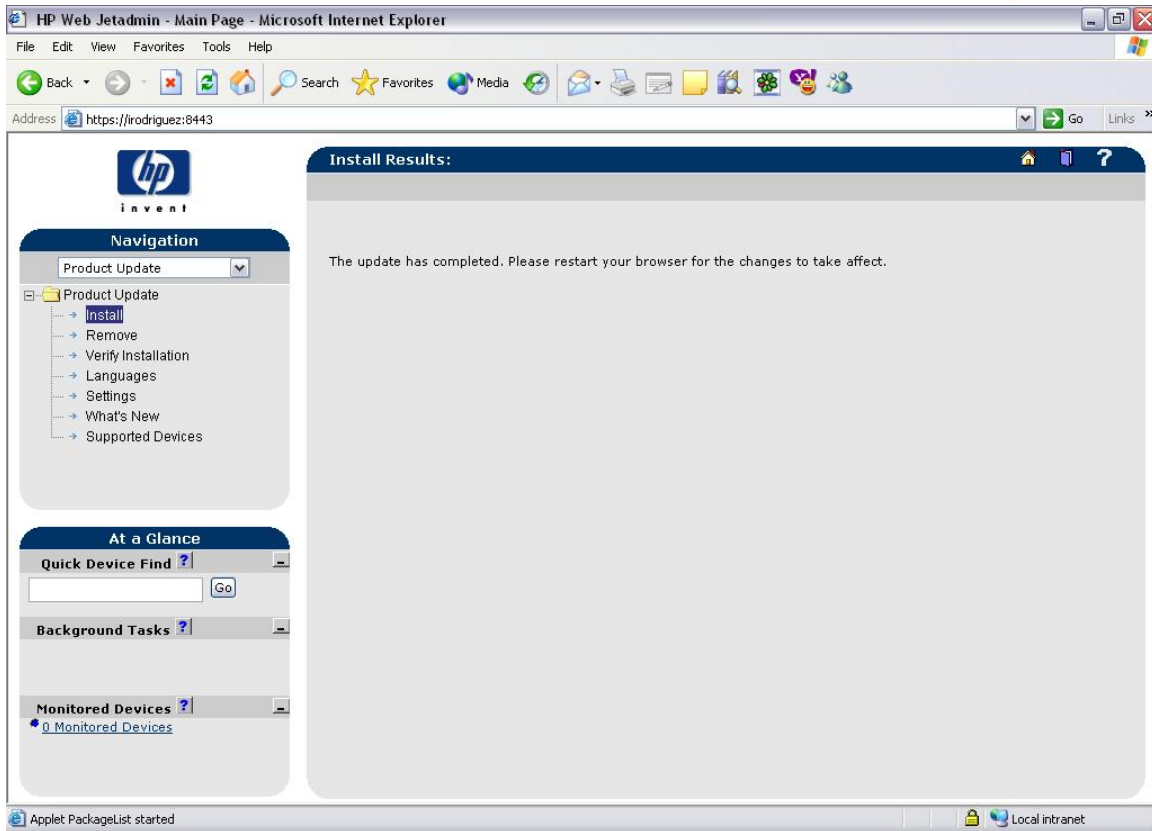

6. Click the *Done* button and select the **Product Update** in the left menu tree inside the **Navigation** area.
7. Click on the **Install** option.
8. Click the *Check HP Web Site for New Updates* button. (WJA will search for the new updates and then WJA display a list with the new ones).

Action	Description	Package

XeroxFirst WJA 7.8 Package Installation Instructions:

Note: The package is named `wjadev_xerox_devices.fpm` and it contains the following plug-in packages:

`wjadev_xerox.fpm`
`wjadev_xerox_workcentre.fpm`
`wjadev_xerox_workcentre_m35.fpm`
`wjadev_xerox_workcentre_m45.fpm`
`wjadev_xerox_workcentre_m55.fpm`
`wjadev_xerox_workcentre_pro_35.fpm`
`wjadev_xerox_workcentre_pro_45.fpm`
`wjadev_xerox_workcentre_pro_55.fpm`

Installation Steps:

12. Download the fpm file (`wjadev_xerox_devices.fpm`) into a temp directory
13. Start HP Web Jetadmin
14. Select the **Product Update** in the left menu tree inside the **Navigation** area.
15. Click **Install**
16. Browse the fpm package that should be located in your temp directory
17. Click the **Upload** button

- The **Available Updates** list must show the “New Install HP Web Jetadmin Device Package – Xerox” message. Select it and click the **Install** button

The screenshot shows the HP Web Jetadmin Update interface. On the left is a navigation menu with 'Product Update' selected, and a sub-menu with 'Install' highlighted. Below the navigation is an 'At a Glance' section with 'Quick Device Find' (IP: 192.168.16.1), 'Background Tasks', and 'Monitored Devices' (0 Monitored Devices). The main content area is titled 'HP Web Jetadmin Update' and displays a table of available updates:

Action	Description	Package	Version	Size (KB)
New Install	HP Web Jetadmin Device Package - xerox	xerox_device_package	4.0.4000	709 KB

Below the table, it says 'One Package Available' and has an 'Install >' button. At the bottom, there is a link: 'To enable product updates from the Web, enable downloads and set the HTTP proxy.' and a 'Select file to upload:' field with 'Browse...' and 'Upload' buttons.

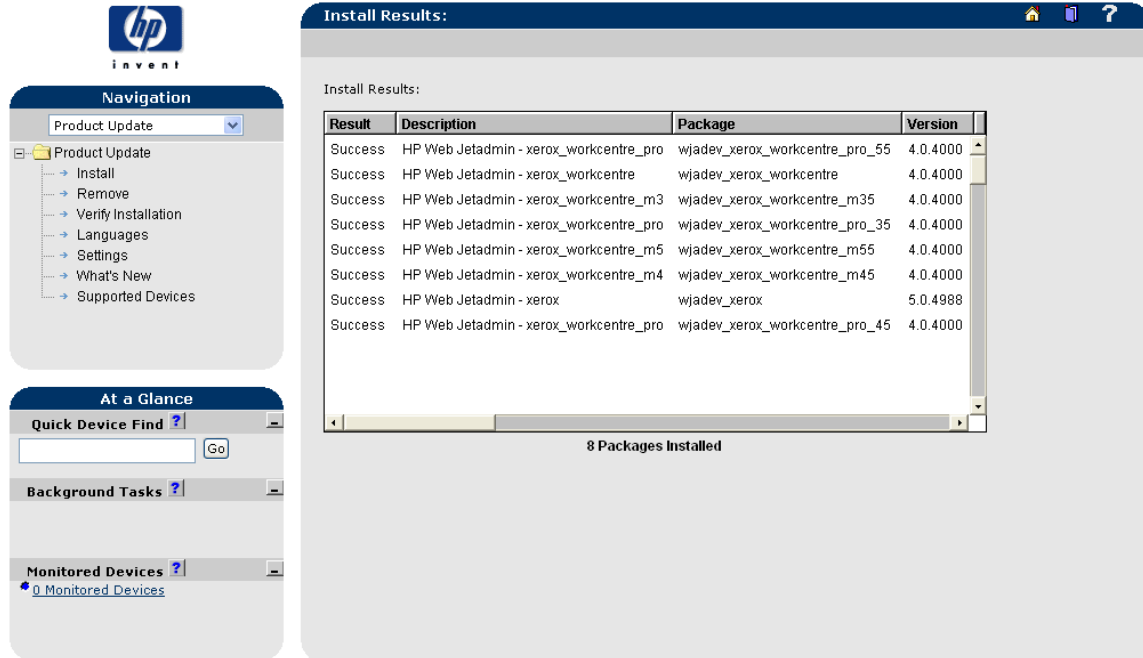

- You should see a “Success one package installed” message reporting the operations result.
- Go to **Product Update - > Install** in the left menu tree of the Navigation area
- The **Available Updates** list must show the Xerox packages available to be installed
- Select all the packages and click the **Install** button

The screenshot shows the HP Web Jetadmin Update interface after installation. The navigation menu is the same, but the 'Available Updates' table now lists 8 packages:

Action	Description	Package	Version
New Install	HP Web Jetadmin - xerox_workcentre_pro	wjadev_xerox_workcentre_pro_55	4.0.400
New Install	HP Web Jetadmin - xerox_workcentre	wjadev_xerox_workcentre	4.0.400
New Install	HP Web Jetadmin - xerox_workcentre_m3	wjadev_xerox_workcentre_m35	4.0.400
New Install	HP Web Jetadmin - xerox_workcentre_pro	wjadev_xerox_workcentre_pro_35	4.0.400
New Install	HP Web Jetadmin - xerox_workcentre_m5	wjadev_xerox_workcentre_m55	4.0.400
New Install	HP Web Jetadmin - xerox_workcentre_m4	wjadev_xerox_workcentre_m45	4.0.400
Upgrade	HP Web Jetadmin - xerox	wjadev_xerox	5.0.498
New Install	HP Web Jetadmin - xerox_workcentre_pro	wjadev_xerox_workcentre_pro_45	4.0.400

Below the table, it says '8 Packages Available' and has an 'Install >' button. The bottom section with the proxy link and upload field is also present.

23. You should see a message at the bottom of the list saying “8 packages installed”

The screenshot shows the HP Web Jetadmin interface. On the left, there is a navigation pane with a 'Product Update' dropdown menu. Below it is the 'At a Glance' section with 'Quick Device Find', 'Background Tasks', and 'Monitored Devices' options. The main area displays the 'Install Results' window, which contains a table of installed packages and a message at the bottom stating '8 Packages Installed'.

Result	Description	Package	Version
Success	HP Web Jetadmin - xerox_workcentre_pro	wjadev_xerox_workcentre_pro_55	4.0.4000
Success	HP Web Jetadmin - xerox_workcentre	wjadev_xerox_workcentre	4.0.4000
Success	HP Web Jetadmin - xerox_workcentre_m3	wjadev_xerox_workcentre_m35	4.0.4000
Success	HP Web Jetadmin - xerox_workcentre_pro	wjadev_xerox_workcentre_pro_35	4.0.4000
Success	HP Web Jetadmin - xerox_workcentre_m5	wjadev_xerox_workcentre_m55	4.0.4000
Success	HP Web Jetadmin - xerox_workcentre_m4	wjadev_xerox_workcentre_m45	4.0.4000
Success	HP Web Jetadmin - xerox	wjadev_xerox	5.0.4988
Success	HP Web Jetadmin - xerox_workcentre_pro	wjadev_xerox_workcentre_pro_45	4.0.4000

8 Packages Installed

24. Use the **Quick Device Find** option to browse in the Network Xerox printers with the model of the installed plug-ins.

Steps to Uninstall

To uninstall the package please do the following:

1. Select the **Product Update** in the left menu tree inside the **Navigation** area.
2. Choose the **Remove** option
3. Search in the **Installed Packages** list the packages to uninstall and selected.
4. Once the packages are selected, click the **Uninstall Packages** button
5. It will show a window with the plug-ins to be uninstalled. Click the **Next** button
6. You will see a message to inform that the packages were successfully removed

The screenshot displays the HP Web Jetadmin Update interface. On the left, there is a navigation menu with a 'Product Update' dropdown menu. Below it, a tree view shows 'Product Update' expanded with sub-items: 'Install', 'Remove', 'Verify Installation', 'Languages', 'Settings', 'What's New', and 'Supported Devices'. The 'Remove' item is highlighted. Below the navigation menu is an 'At a Glance' section with three panels: 'Quick Device Find' (IP: 192.168.16.1), 'Background Tasks', and 'Monitored Devices' (0 Monitored Devices).

The main content area is titled 'HP Web Jetadmin Update' and shows a table of installed packages. The table has columns for Description, Package, Version, and Patch. The first row is highlighted in blue.

Description	Package	Version	Patch
HP Web Jetadmin - xerox	wjadev_xerox	5.0.4988	
HP Web Jetadmin Device Package - xero	xerox_device_package	4.0.4000	
HP Web Jetadmin - xerox_workcentre_p	wjadev_xerox_workcentre_pro_55	4.0.4000	
HP Web Jetadmin - xerox_workcentre	wjadev_xerox_workcentre	4.0.4000	
HP Web Jetadmin - xerox_workcentre_	wjadev_xerox_workcentre_m35	4.0.4000	
HP Web Jetadmin - xerox_workcentre_p	wjadev_xerox_workcentre_pro_35	4.0.4000	
HP Web Jetadmin - xerox_workcentre_	wjadev_xerox_workcentre_m55	4.0.4000	
HP Web Jetadmin - xerox_workcentre_	wjadev_xerox_workcentre_m45	4.0.4000	
HP Web Jetadmin - xerox_workcentre_p	wjadev_xerox_workcentre_pro_45	4.0.4000	

Below the table, it indicates '330 Packages Installed'. There are two buttons: 'Uninstall Packages' and 'Remove Selected Patches'.

Note: wjadev_xerox is an upgrade of the basic Xerox plugin included in WJA, this plug-in can't be uninstalled due to a dependency error.
