Xerox® FreeFlow® Print Server
Customer Welcome Package

702P04536

October, 2016

Welcome and Congratulations,

Whether you are just starting out in digital color or already delivering color-critical jobs, the Xerox® FreeFlow® Print Server is sleek and simple with smart software to help you get the job done. Xerox® FreeFlow Print Server brings the most sophisticated blend of office and production workflows with version 9.0 and delivers production level capabilities such as robust queue management and Adobe PDF Print Engine support, while honoring all the capabilities the Xerox press has to offer.

From the walk-up user to the dedicated operator, the User Interface (UI) is easy to use and customizable to support the activities you do most. With last minute changes made effortlessly at the UI on a page, job, or queue level, Xerox® FreeFlow Print Server makes it easy to get great results every time.

Support for your Xerox® FreeFlow Print Server is available on the Xerox® FreeFlow Print Server UI. Additional information is available at www.Xerox.com under the Support / Support and Drivers links.

Print drivers are available for download from the Xerox website under the Support / Support and Drivers links.

Should you require additional assistance, contact your local Xerox Representative. Please have your press serial number available.

Sincerely,

Your Xerox Team
