

## Secure Send Transmission

The Secure Send feature prevents your machine from sending to an incorrectly dialed number. With this function enabled, the dialed number is compared to the remote machine ID telephone number. The transmission is possible only when the numbers match.

**Note:** This feature is used for one operation. To set the secure send feature on all future transmissions, see “Secure Send Settings” later in this chapter.

To set the Secure Send feature:

1. Load the document face down in the Document Tray.
2. Select the desired **Resolution** and **Contrast**.
3. Press:

1

5

### Secure Send

1. On
2. Off

4. Select the Secure Send option:

To enable the Secure Send Mode, press **1**.

To disable the Secure Send Mode, press **2**.

Free Memory  
Enter fax number

100%

5. Press **Menu** to select additional fax options, or using one of the dialing methods, enter the fax number, then press **Enter**.

The document is sent and the machine returns to the Standby Mode.
