

Manual Secure Receive

Once the Secure Receive Mode is enabled (see “Automatic Secure Receive Setup”) you can enforce the mode at any time (even outside of the time period specified in “Automatic Secure Receive Setup”).

To manually enforce Secure Receive Mode:

1. Open the Access Cover and press:

Secure receive
1. Start
2. Stop

2. To start the Secure Receive Mode, press **1**.

The Secure Receive Mode is activated and the machine returns to the Standby Mode.
