

## Deleting or Inserting Characters

---

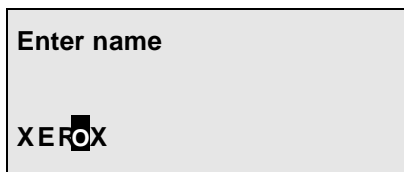

1. Using the  and  arrow keys, position the cursor at the character to be deleted or at the point of insertion.

**Note:** If you are not in the insert mode, pressing **Delete** deletes the character, but the spaces remain.

2. Press:  .  
The message "Insert" is displayed.

3. To insert, enter the correct character(s).  
To delete, press  .
