Release date: 4 June 2009

Technical bulletin

Xerox CX Print Server, Powered by Creo, for the Xerox 700 Digital Color Press, Version 1.5:
Fixed SPARs

Following is a list of SPARs that are resolved in version 1.5 of the CX Print Server software.

SPAR#	Summary
943954104	Auto tray switching does not work with slip sheets.
066350110	When printing from Windows Vista 64 bits, a Splwow64.exe error message appears.
963615948	PDF file that is sent from Prinergy (v 4.0.2.5.18) fails in the process queue without any reason.
561619330	Manual duplex and image shift does not work.
893333407	It is not possible to perform the calibration process for transparency and custom paper size.
778062598	When Tray 5 runs out of paper, the paper size changes.
104041766	When an Adobe Acrobat 8.0 file is imposed, crop marks increase when the image is increased. Crop marks don't cut into bleed.

About Print On-Demand Solutions Group

The Print On-Demand Solutions Group develops and supports high-performance CREO Color Servers and key workflow solutions for a range of digital production printers and presses. It also develops advanced on-demand applications to enable the creation of personalized direct mail, targeted catalogs and other powerful one-to-one marketing communications tools.

This independent unit of Kodak's Graphic Communications Group will continue to help its customers leverage their investment in digital printing.
