 - Postgres 10.x
 - Postgres 9.x
-

Fixes

AR Number	SPAR Number	Description
38792	131358	A configured Content Store path can be reused after additional space is allocated.
37557		A new Document version can be added using Content Rules when Content Encryption is enabled.
38277	131170	After upgrading from DocuShare 6.6.1 to DocuShare 7.0, the JDBCPropertyBean.xml contains the correct Alter statements for SQL Server.
38212		The dssetup command lists the correct databases.
37988		Two semi-colons no longer display when selecting the Document Viewer Document View icon.
37813		A Lifecycle Manager policy with the & character in the Policy Title will now execute.
35860	99750	A Content Rule with route document action with group as the recipient now assigns tasks to newly added group members.
38252	131117	Personal theme can be changed.
38235	130557	Menu properties now display correctly for saved search queries.

38169	130865	The dsimport modify command functions properly on resume.
38205	130854	My background job displays jobs without an exception.
38194	130987	Edit collection page displays correctly when using display sequence.
38099	130757	Advanced search page now displays menu values when the label contains an Apostrophe.
36568	100617	Zip and Download no longer causes java heap dump.
37901	130220	LDAP synch now preserves the case of user's email address.
37942	130398	Email Agent no longer retrieves emails if the DocuShare license is expired.
37857	130406	Email notifications are sent to users whose email address contains special characters.
38931	131994	The dsconvert.exe process no longer consumes excessive memory.
37790	130161	The trashcan sorts correctly by size.
39075	132613	Content rules now convert .msg files to MailMessage object when content encryption is enabled.
37813	132079	A Lifecycle Manager policy with & character in the Title now executes.
39108	132894	Archive only appears on the Edit Selected menu if it is enabled and licensed.
