

Customer Release Notes

Phaser 6010

Firmware Release version 201202081342

Release Date: August 2012

Software Release Details

Component	Version
Firmware	201202081342

Purpose

This firmware release contains the following fixes:

- added a feature to disable the ability to update the Phaser 6010's firmware.
- improved the wording for some error messages
- corrected an issue that resulted in "116-343 ASIC Fail" error
- translation improvements
- fixed a problem where the print resolution dpi was not reported correctly in CWIS

New feature:

There is a new menu item under: Menu > Admin Menu > System Setup > S/W Download. It is set to Disable by default. When S/W Download is set to Disable, and a firmware file is sent to the printer, the following error can occur on the front panel:

016-741
Protection Error
Press OK button.

When the OK button is pressed, the message "Cancelling job..." will appear on the front panel. After the firmware update job is cancelled, the printer will return to Ready.

NOTE: For best security leave this control set to disabled after upgrading your software. The control must be set to enabled prior to doing a software upgrade.
