Prerequisites

- Previous working knowledge with the EX260
- The EX260 must be at version 2.0 prior to performing this install. This software is supplemental to the 2.0 launch software.
- The following patches must be loaded prior to installing this patch. They are available via System Updates or www.xerox.com
  - 1-VT062
  - 1-XMDF0
  - 1-YLGU4

Installation Instructions

NOTE: This software may be installed by the customer.

Install the EX260 1-10383I patch:

__ 1. Copy the 1-10383I.zip file to a PC
  __ a. Unzip the file
  __ b. Open the 1-10383I folder
__ 2. Install the 1-10383I patch
  __ a. Double click on the 1-10383I.exe file
  __ b. At the Fiery Patch Download window, click [Next]
  __ c. At the License Agreement window, click [Accept]

__ d. At the Fiery Logon window, type the Fiery administrator login password in the Password field

  NOTE: *Do NOT change the User field; that value must be admin.*

__ e. In the Hostname field, type in the IP address or hostname of the EX260 and select [Connect]

__ f. At the Server Information window, select [Download]. The patch will be downloaded and installed

__ g. At the Processing window, select [Next], wait for approximately one (1) minute

__ h. On the final window, select [Reboot], then select [Finish]

  NOTE: *The patch will not be installed until the EX260 is rebooted.*

__ 3. Verify that the patch is installed and wrap-up

__ a. Once the Fiery status says "Idle," select [Server: Print Pages] from the CWS menu and print a configuration page.

__ b. On the "System Update Log" sheet of the configuration pages, ensure that the patch 1-10383I is listed

__ c. At the PC, delete the 1-10383I.zip file and the 1-10383I folder.

*NOTE: When executing **1-10383I.exe** manually, if you choose **Restart later** when prompted by the Fiery Patch Downloader, please make sure you manually Restart the server for changes to take effect. In some cases, the patch will require a Restart Fiery, and a Reboot. EFI recommends rebooting the server from the Windows Start Menu Shutdown interface.*

NOTE: This patch is Exclusive which means it must be installed independently and the server rebooted/restarted once. After which, other patches can be applied to the server.
