

Xerox® Versant™ 2100 Press Recommend Media List update instructions

Note

It is recommended that this task be performed by the Press Systems Administrator.

1. If possible, download the zip file from Xerox.com directly to the print server desktop.

If not, using a computer with internet access, download the zip file from Xerox.com to the computer desktop and transfer the file to the print server using a portable drive.

2. At the print server desktop, close the Stock Library Manager application and minimize any open windows.
3. If required, copy “Versant_RML” zip file to print server desktop.
4. Open the “Versant_RML” zip file and extract the “Recommended Media List.rml” file to the print server desktop.
5. Select and open the “Stock Library Manager Profiles” folder (shortcut), then select and open the “rml” folder.
6. Copy or move the new “Recommended Media List.rml” file into the “rml” folder to replace the old file.
7. Close the “rml” folder and, if necessary, the “Stock Library Manager Profiles” folder (shortcut).
8. The updated recommended media list is now available in the Stock Library Manager application.
