

**END-USER LICENSE AGREEMENT ADDENDUM (“EULA ADDENDUM”)
FOR MICROSOFT® WINDOWS® XP EMBEDDED DESKTOP QFE INSTALLER TOOL 1.0**

IMPORTANT READ THIS FIRST

This item includes functionality – the Microsoft® Windows® XP Embedded Desktop QFE Installer Tool 1.0 (the “Desktop QFE Installer Tool”) – licensed by Electronics for Imaging, Inc. (“EFI”) from Microsoft Licensing Inc. or its affiliates (“MS”). The Desktop QFE Installer Tool is provided for the sole purpose of updating or supplementing portions of the software licensed by EFI from MS, which previously was licensed to you with the EFI device you have acquired (the “Device”).

By using the Desktop QFE Installer Tool provided with this EULA Addendum, you are agreeing to be bound by the following terms. If you do not agree to be bound by these terms, you may not use the Desktop QFE Installer Tool.

Upon installation, the Desktop QFE Installer Tool becomes a part of the original MS software provided to you with the Device (the “Software”) and is subject to the terms and conditions of the original MS End User License Agreement (“EULA”) under which you licensed the Software. To the extent that any terms in this EULA Addendum conflict with terms in the EULA for the Software, the terms of this EULA Addendum control solely with respect to the Desktop QFE Installer Tool.

NOTE: If you do not have a valid EULA for the Software, you are not authorized to install, copy, access or otherwise use the Desktop QFE Installer Tool. Any other use of the Software is prohibited.

-
- You acknowledge that the Desktop QFE Installer Tool includes functionality that is designed to enable you to install on your Device, Quick Fix Engineering updates (“QFEs”) or other updates (“Non-Embedded Updates”) which originally are designed for personal computer hardware running a non-embedded version of the Windows XP operating system (e.g., Windows XP Professional) and not for your Device which is installed with the Software.
 - The Desktop QFE Installer Tool is designed to work only with QFEs and Non-Embedded Updates that incorporate certain enabling code associated with the Desktop QFE Installer Tool, which code may not have been included in all QFEs and Non-Embedded Updates available from Microsoft Corporation, its affiliates, or others. QFEs and Non-Embedded Updates first released by Microsoft Corporation on or after May 11, 2004 generally will include this enabling code, but no assurance is made that all such QFEs and Non-Embedded Updates will be so enabled.
 - Without limiting any other disclaimer made in the EULA or this EULA Addendum with regard to the Software, you specifically acknowledge and agree that the Desktop QFE Installer Tool is provided “AS IS” and with all faults. You further acknowledge and agree that no warranty is provided by EFI, Microsoft Corporation, Microsoft Licensing, GP or any of their affiliates with respect to either the Desktop QFE Installer Tool or any QFE or Non-Embedded Update that you install or attempt to install on your Device.
 - In addition, you acknowledge and accept that (i) QFEs and Non-Embedded Updates may not be necessary or suitable for installation on or use with your Device or the Software, and (ii) if installed or attempted to be installed on your Device, QFEs and Non-Embedded Updates may not function on the Device or may malfunction and/or cause harm to the Device, to operators of the Device or to other persons or property. If you install a QFE or a Non-Embedded Update, you agree that you assume all risk and liability with regard to any QFE or Non-Embedded Update that you install or attempt to install on your Device using functionality provided by the Desktop QFE Installer Tool. Your further agree that neither EFI, Microsoft Corporation, Microsoft Licensing, GP nor any of their affiliates have any liability to you with respect to the Desktop QFE Installer Tool or any QFE or Non-Embedded Update that you install or attempt to install on your Device.
 - EFI or its Authorized Distributors or Dealers are solely responsible for providing technical support, if any, to you in connection with your installation of QFEs or Non-Embedded Updates on your Device using functionality provided by the Desktop QFE Installer Tool. Please contact EFI or the Distributor or Dealer who provided you with the Device if you have any questions regarding any QFE or Non-Embedded Update that you are considering installing on your Device or otherwise regarding the Desktop QFE Installer Tool functionality.

IF YOU DO NOT AGREE TO THESE TERMS AND CONDITIONS, DO NOT INSTALL, COPY, ACCESS OR USE THE DESKTOP QFE INSTALLER TOOL.
